

HP Pavillion dm4t-2100 Battery Replacement

This guide will go through all the necessary steps in order to remove the power source.
"prerequisite only"

Written By: Dylan Call

INTRODUCTION

You will be taking out a 10.8 volt power source located at the base of the computer. Please make sure the computer is turned off before taking the power source out.

Step 1 — Battery

- Shut down the computer.
 - ⚠ Shutting down the computer by holding power button can cause damage to computer.
- Turn computer upside down so the base is facing upward.

Step 2

- Slide latch next to battery icon until battery pops up.
- Pull the battery away from the computer until completely detached.

To reassemble your device, follow these instructions in reverse order.
